

Mid Canterbury Tennis Charitable Trust

2018 Annual Report

The Trust began the year considering whether to replace the floodlights with LED bulbs, and after obtaining quotes and reviewing our electricity consumption, it was deemed not viable.

Two heat pumps have been installed in the pavilion, and one of the old heaters has been installed in the coach's office.

Thanks to the ANZ Bank staff for respraying the top railings around the courts as their contribution towards community projects.

The interior of the pavilion has been painted, along with the store room and the verandahs, the first time since the facility was built.

Courts to be resurfaced in December 2019 will be courts 1-4 and 9-12.

We are currently looking for a replacement sponsor for the court previously sponsored by Stirling Sports.

Upcoming work includes installing a handrail for the stairs and considering shade cloth for the perimeter fencing.

I would like to thank the trustees for their contribution and support this past year- David Bishop, Gary Casey, Gary Hunt, Gretchen Hart and Cynthia Christie.

Thanks also to all the people who contribute towards making the Ashburton Trust Centre the great facility that it is.

Neil McCann
